NOTE: Underline == add
Strikethrough == delete

This application is in condition for allowance except for the following reason(s):

Claim 5 line 5 "function f" ought to be "function (f)" to be consistent with the claim language as it appears at line 4.

Claim 8. (page 5 lines 29-31 and page 6 lines 1-13)

An image processing method of claim 1, to be applied to, ~~at least,~~ a sequence of MRI tagged images, to track tags on successive images of the sequence, comprising steps of:
initializing the processing method by implementing ~~one of the methods~~ the method of claim 1 for the first image of the sequence, using a first predicted image which represents ~~the~~ a non-deformed modulation pattern; and
iteratively implementing the image processing method of claim 1 for the following images of the sequence.

Claim 9 recites "A computer program product comprising a set of instructions for carrying out a method as claimed in claim 1."

This claim is non-statutory because the terminology "computer program product" alone has no set definition.

Either claim 1 needs to be cancelled or amend to recite, "A computer readable medium storing a program comprising a set of instructions for carrying out a the method as claimed in claim 1"

Claim 10 line 3 "a method" ought to be "the method"

Claim 11 line 3 "a system" ought to be "the system"

Please call me to confirm these changes and/or comments asap.

Thanks,

Shefali Patel
